RAH

www.philipmorrisusa.com Website Re-design Update

- Re-launch of internet website in August 2002, aimed mainly to improve the presentation of information and provide better better navigation paths for visitors
- New site architecture has some new contents (e.g. From Seed to Pack, Consumer Center) and some old contents re-formatted
- Re-formatted contents related to smoking & health : Health Issues for Smokers, Quitting Smoking, Secondhand Smoke, Low Tar Cigarettes, Tar & Nicotine and Ingredients
- Review of re-formatted contents and organization for August re-launch
- Continuous development of new design of health issues pages

Health Issues Pages Re-Design

Elements of new design for health issues pages discussed in Website Design Workshop with Corporate Affairs in April 02:

- Identification of website visitors
- Selection of topics and level of details by website visitors
- Inclusion of harm reduction efforts

Identification of website visitors

Next Steps

- Establish timeline – new health issues pages to be implemented by Dec 02 (?)
- WSA Coordinators to be responsible for the drafting of content of respective topics
- WSA Communication Group to help with the drafting and the steering of contents to final form to be posted on the web
- Priority setting and resource allocation for website work
- Implementation of new health issues pages follows proposed process for RD & E web contents creation & update
